

The background of the entire image is a close-up, high-resolution photograph of dark brown, roasted coffee beans. The beans are scattered across the frame, with some in sharp focus in the foreground and others blurred in the background, creating a sense of depth. The lighting is warm and slightly dim, highlighting the texture and creases of the beans.

Coffee Shop Sales Analysis

PROJECT OVERVIEW

- Maven Roasters operates across three locations in NYC.
- Transactional data from Jan to June 2023 was collected to assess purchase behaviors and enhance operational efficiency.
- **Goal:** Create a dashboard to visually represent key business insights for informed decision-making.

PROJECT GOALS

- **Analyze Sales Trends:** Understand how Maven Roasters sales have evolved over the first half of 2023, identifying patterns in revenue growth or decline.
- **Identify Busiest Days:** Determine which days of the week have the highest foot traffic and sales, and explore the reasons behind these trends to improve operational efficiency.
- **Evaluate Product Performance:** Analyze which products are most and least frequently purchased, and identify the key products driving the most revenue for the business.
- **Provide Data-Driven Recommendations:** Use the insights to suggest actionable strategies for increasing sales, improving customer satisfaction, and optimizing store operations.

APPROACH TO DATA INSIGHTS

- **Dataset Size:** 149,116 records, 11 fields.
- **Exploration:** Used filters to explore and analyze data integrity.
- **Data Integrity:** Trimmed unwanted spaces, no unwanted data or duplicates found.
- **Revenue Calculation:** A new column was added to compute revenue.
- **MONTH, WEEKDAY and HOUR functions** used to create new columns for Month and Day of the Week (formatted as text with TEXT function).

APPROACH TO DATA INSIGHTS

- **Product-Level Trends:** Analyzed using PivotTables.
- **Data Summaries:** Monthly Revenue, Transactions by Day of the Week, Hour, and Product Category summarized in descending order.
- **Top 15 Products:** Sorted by transaction count and revenue.
- **Dashboard Creation:** Included all charts, KPIs for Monthly Revenue, Transaction Count, and Average Revenue. A slicer was added to track trends across all charts.

KEY INSIGHTS

Revenue Analysis

- ❖ The best-performing store in terms of revenue, generation is Hell's Kitchen with \$236,511, outperforming the other two locations.
- ❖ **Peak Sales Times:** At Hell's Kitchen, the highest number of transactions occurs on Fridays and Thursdays between 8 AM and 10 AM.
- ❖ **Top Product:** Barista Espresso is the most sold product category during this time, with coffee being the top-selling item.

Product sales Analysis

- ❖ Barista Espresso is the top sold product category with \$91,406 followed by Brewed Chai Tea and Hot Chocolate.
- ❖ Coffee and tea are the top-selling items, followed by bakery products.
- ❖ Organic beans and premium beans are the least sold product category. Packaged chocolate is the least sold item.

Day – Wise Analysis

- ❖ **Highest Foot Traffic:** Friday and Thursday have the highest foot traffic sales between 8 to 10 AM.
- ❖ **Median Foot Traffic:** Monday and Wednesday generate the median sales transactions.
- ❖ **Lowest Revenue Days:** Saturday generates the least revenue, with Sunday following closely behind.

RECOMMENDATION

- **Optimize Staffing During Peak Hours:** Given the rush between 8 AM and 10 AM, ensure that staffing is optimized to reduce wait times and improve customer service during these critical hours.
- **Customer Feedback Integration:** Regularly collect and analyze customer feedback to refine offerings and improve service quality, ensuring customer preferences are met.
- **Weekend Specials:** Since weekends (especially Saturdays) show lower sales, consider introducing exclusive weekend offerings like brunch specials, limited-time menu items, or family-focused promotions to drive traffic.
- **Collaborations and Events:** Partner with local businesses for cross-promotions or host in-store events to increase foot traffic and attract new customers.
